

SOLID SURFACE MATERIAL

GetaCore®

 WESTAG &
GETALIT AG

INGENIOUS | IMPRESSIVE

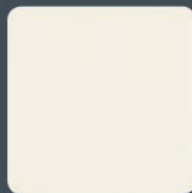

Colours say a lot but they never tell the whole story. What really counts is the interplay of colours and texture. This is why GetaCore® comes in a range of sophisticated textures which lend themselves to a wide variety of customised interior design concepts. From design-oriented and visionary to timeless and charming, GetaCore® offers the right textures to fulfil your visions. Use GetaCore® to imbue your rooms with character and add value to your interiors. Apart from its stylish looks, this acrylic bound solid surface material also benefits from the high standards of quality applied by an experienced brand-name manufacturer. As a result, GetaCore® performs brilliantly in day-to-day use. Its absolutely non-porous surfaces are impenetrable to dirt and bacteria, thereby ensuring the highest levels of hygiene. If you are looking for a smart combination of impressive design and superior functionality, go for GetaCore®!

UNI DECORS | DESIGN-ORIENTED

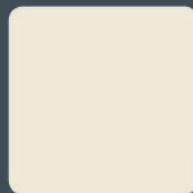

Solid colours are always a safe choice. Our broad range of design-oriented solid colours allows you to implement any type of interior design concept. Intriguingly elegant, these solid colours are sure to bring out the best in your interior design.

UNI DECORS | VISIONARY

Purism in its most fascinating form is best expressed by clear forms in solid colours. The viewer's attention can focus on the essentials, with nothing detracting from the thoughtful details. The here and now takes centre-stage but the vision points to the future.

FINE GRAIN DECORS | CLASSICAL

Choose a fine grain decor for graceful and discreet interior designs schemes. These textures bring a unique experience to your bathroom. Highly practical and convenient in day-to-day use, they are a pleasure on the eye all year long.

FINE GRAIN DECORS | SHARED PLEASURES

Perfect for entertaining friends and sharing culinary delights in a tasteful ambiance, fine grain decors never fail to make an impression. However, rather than standing out, they are content to serve as the backdrop of events.

NUGGET & STAR DECORS | TIMELESS

Feast your eyes on these beautiful surfaces, which evoke images of a clear summer night illuminated by countless shining stars. Our solid surface worktops bring the spectacle of falling stars to your kitchen, letting you enjoy an intriguing extravaganza of light and colours.

The new Nugget decors derive their fascination from our transparent and uniquely glitzy crunchies.

RAINDROPS & TERRAZZO DECORS | CHARMING

Step into a world of difference and discover the perfect material for your entrance area. Our Raindrops decors effortlessly blend into your room and never fail to command attention. This is an ideal way to make a strong impression at first sight.

Terrazzo, a type of flooring which has been around since antiquity, comes back in great style in our contemporary Terrazzo decors - a great way to imbue a room with a monumental feel.

The product application examples shown in this brochure have been graphically produced and might differ from the original decor. Colour variations to the original decors are subject to printing limitations !

Quality features

Westag & Getalit AG's long-standing commitment to thorough research and development results in high-quality products which you can rely on. GetaCore® allows you to create smooth joints and well matched colour transitions. Our highly accurate manufacturing process also allows for the production of impressive translucent elements, which can be illuminated for truly magical effects.

Care and maintenance

Colour-intensive GetaCore decors require more care and maintenance. The higher colour pigment proportion means that these decors tend to be more sensitive to abrasion in residential, commercial and public areas. We therefore recommend installing strongly pigmented GetaCore® decors only on surfaces which are not exposed to constant wear and tear.

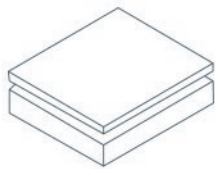

Please note that due to the production technology used, occasional dust trappings cannot be ruled out on GetaCore® Uni colour decors.

The suitability of GetaCore® Star and GetaCore® Nugget decors for horizontal installations subject to heavy wear and tear should be assessed on a case by case basis. High-gloss dark decors, in particular, tend to show signs of wear and tear in the form of scratches and smudges earlier than other decors.

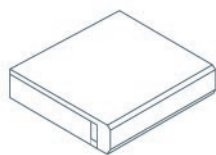

Programme information

The aim was to develop a design-oriented material which lends itself to a wide variety of different design options. GetaCore® meets these expectations and ushers in a new era of acrylic-bound mineral materials. GetaCore® offers good thermal shaping characteristics and is suitable for grinding and sanding. GetaCore® can be shaped three-dimensionally, making it an ideal material for exceptional design solutions. Available in 3 mm and 10 mm thicknesses, this material gives shape to all your ideas for bars and tables, shelves and furniture fronts, basins and designer objects.

o = available at short notice | x = available within 2-3 weeks

Sanitary basins from the Special Range in all decors shown are available within 4 to 5 weeks. The baby tubs are exclusively available in decor GC 2011. Please note that normal wear and tear typically becomes visible on dark and heavily pigmented GetaCore® basin decors earlier than on brighter colours and textures. The decors of the Star/Terrazzo/Raindrops/Nugget collection are not available for sanitary basins.
