### CARE INSTRUCTIONS

The use of plastic bowls is NOT recommended as scratching of the surface may occur. Small particles of grit or bone may become embedded in the base of the bowl and can rub on the sink surface. A lightweight plastic draining mat can be used to protect the sink basin when large trays or saucepans are being cleaned and should be removed after use.

Taps or wastes with a non-tarnish plated finish should only be cleaned with a mild soap solution such as Fairy Liquid or a mild cream like Cif. Neat bleach or strong abrasive cleaners should never be used on any plated products. For this reason we cannot guarantee wastes after they have been fitted. Plated wastes and taps should always be wiped dry with a soft cloth after use.

### CARRIAGE CHARGES

Orders under £250 or where required next day may incur a small order charge in some circumstances. Please check with sales office.
